Getting aid and relief supplies to remote areas of Africa is challenging and at times difficult to achieve. With more than 30 years of experience in Africa, and first hand expertise in transporting cargo to difficult inland destinations, Damco is ideally positioned to support your requirements.

We provide aid agencies and their suppliers with a full range of global logistics services. These include complete ocean freight, airfreight and landside services; all with end-to-end in-transit visibility. Our landside services are available across the world and include stevedoring, trucking, warehousing, customs clearance and distribution. We pride ourselves on providing customised innovative solutions to meet your critical needs; specific to the aid & relief sector.

We are unmatched in our local and extensive footprint with representation in 315 locations in more than 90 countries globally.
