

A complete VGM weighing and filing solution

Damco's Verified Gross Mass weighing and filing services allow you to comply easily with the container weighing regulation (SOLAS). Our solution covers both the weighing of the cargo/container and the submission of the Verified Gross Mass to carriers in the required format and via the required channels.

We offer container weighing services at 300+ locations worldwide

 Locations where Damco offers container weighing services.

- ✓ Globally available
- ✓ In accordance with IMO standards and local certification
