

**Wednesday, 19 September 2018**

Dear Supplier,

As announced this morning (CET), Damco Freight Forwarding will be positioned as a multi-carrier freight forwarder and as a standalone business separate from Maersk. Maersk Line's ocean product, Damco's supply chain services and their respective value-added services (VAS) will be combined as Maersk products and services going forward.

In Damco Freight Forwarding's future capacity as a standalone business, we would like to assure you that we value our working relationship and that this move strengthens Damco's ability to be an independent freight forwarder serving our global customer base.

We value our cooperation and working relationship, and we will naturally – as always – live up to our contractual obligations.

As we do today, over the next months we will look forward to having you as our partner in growth and supporting our customer's needs. We will be in touch frequently to keep you updated on our independent journey.

You can read more on [damco.com](http://damco.com) about the reasoning for us taking this next important and exciting step in our moves towards Damco Freight Forwarding's future.

If you have any questions, please get in touch with your usual contact person at Damco or write an email to [SupplierQA@damco.com](mailto:SupplierQA@damco.com).

We thank you for your support during this transformation and we look forward to our continued collaboration.
